**PETITION TO MAKE SPECIAL
UNDER 37 CFR 1.102(d)**

MS Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants hereby petition to make the above-identified application special under MPEP § 708.02, X. The application has not yet been examined. The present invention relates generally to a particle therapy system, and particularly to a patient positioning device and method. In one aspect of the invention, the positioning system and method uses the location of a tumor and the expected path of a charged particle beam to position a patient on a support. While the patient is positioned on the support, particle beam therapy is applied. The positioning system and method allows for the applied treatment to be more accurately directed to the diseased portion (e.g., cancerous tumor) of the patient's body. Thus, the present invention contributes to the treatment of cancer, within the meaning of MPEP § 708.02, X. Accordingly, applicant requests that this Petition to Make Special be granted and the application undergo accelerated examination.
